**SVQ-3PIT**

**Infrared Hand-held Remote Control**

**Description**

The SVQ-3PIT Infrared Hand-held Remote Control provides remote blind operation from the palm of your hand. The Infrared Hand-held Remote Control transmits signals to Sivoia or Sivoia QED® Electronic Drive Units (EDUs). The Infrared Hand-held Remote Control is compatible with learnable remote controls. To access advanced features, please refer to the Sivoia QED Wiring and Programming Guide or the Sivoia QED Technical Reference Guide.

**Operation**

Point the Infrared Hand-held Remote Control at the Sivoia or Sivoia QED IR receiver, then use the buttons as shown below.

- **Press Open button once:** Blind(s) will open.
- **Press Preset 1 button once:** Blind(s) will go to preset level 1.
- **Press Preset 2 button once:** Blind(s) will go to preset level 2.
- **Press Preset 3 button once:** Blind(s) will go to preset level 3.

Pressing any button while the blind(s) are moving will stop the blind(s).

**Easy Preset Programming**

1. Adjust blind(s) to desired position.
2. Point the SVQ-3PIT at any of the Sivoia or Sivoia QED® Receivers.
3. Press and hold the desired Preset button for 5 seconds.

**Note:** Pressing any button while the blind is moving will stop the blind.

**Battery Replacement**

The SVQ-3PIT Infrared Hand-held Remote Control uses 3 AAA batteries which are pre-installed (see diagram). For best results use Energizer® brand alkaline batteries. Do not use NiCad batteries.

- **To replace batteries:**
  1. Remove the battery cover.
  2. Replace with 3 size AAA alkaline batteries as shown.
  3. Replace the battery cover.

**The Infrared Hand-held Remote Control is safe for use around baths and spas.**

**DO NOT SUBMERGE IN WATER.**
## Troubleshooting

<table>
<thead>
<tr>
<th>Problem</th>
<th>Causes</th>
<th>Remedies</th>
</tr>
</thead>
<tbody>
<tr>
<td>Infrared Hand-held Remote Control has no effect on the Electronic Drive Unit (EDU).</td>
<td>Electronic Drive Unit (EDU) power is OFF. Dead, low, or no batteries in the Infrared Hand-held Remote Control.</td>
<td>Restore power. Install new batteries.</td>
</tr>
<tr>
<td>Infrared Hand-held Remote Control is too far away from the IR receiver.</td>
<td></td>
<td>Try moving closer to the blind(s) you wish to control. If an IR receiver is installed on the Electronic Drive Unit (EDU), verify that it is properly installed and the IR receiver is not obstructed (e.g. by curtains, fascias, drapes.).</td>
</tr>
<tr>
<td>Batteries inserted incorrectly.</td>
<td></td>
<td>Install batteries per diagram.</td>
</tr>
<tr>
<td>Presets are not being saved.</td>
<td>The desired preset button was held for less than 5 seconds.</td>
<td>Press and hold the desired preset button for at least 5 seconds.</td>
</tr>
<tr>
<td>Presets are locked.</td>
<td></td>
<td>Unlock presets. Refer to the setup guide that accompanied the EDU.</td>
</tr>
