Description

The SVQ-4S2G-IT Infrared Hand-held Remote Control provides control of Sivoia® or Sivoia QED™ motorized window shades and GRAFIK Eye® or Spacer System™ lighting systems.

The user can operate up to two groups of shades, using the SVQ-4S2G-IT. These two groups of shades can be selected individually by pressing the Shades 1 button or Shades 2 button or together by pressing the Both button on the SVQ-4S2G-IT. The selected shades can then be moved by pressing the Open, Close, Raise or Lower buttons (see Operation section below). For Sivoia QED Electronic Drive Units (EDUs), please refer to the Sivoia QED Wiring and Programming Guide or the Sivoia QED Technical Reference Guide for the setup procedure. For Sivoia Electronic Drive Units please refer to the Sivoia Electronic Drive Unit installation instructions or the Sivoia Technical Reference Guide for the set up procedure.

The user can operate GRAFIK Eye, PerSONNA or Spacer System lighting scenes (1-4 and OFF) by pressing a lighting scene button on the SVQ-4S2G-IT. The lighting scene buttons recall lighting scenes previously programmed in the lighting system. Please refer to the installation instructions of the lighting systems for more details.
