

Approved Lamp Types for Use with 42 W Compact Fluorescent Dimming Ballasts

Certain models of *Lutron* dimming ballasts for 42 W compact fluorescent lamps were introduced early in the development of 42 W lamps and were designed to operate only those lamps manufactured by Philips. In particular, *Lutron* ballasts with the following model numbers should only be used with the Philips PL-T 42 W compact fluorescent lamps:

FDB-CT42-120-1-B
FDB-CT42-120-1-E
FDB-CT42-277-1-B
FDB-CT42-277-1-E

Lutron cannot guarantee the performance of other manufacturer's lamps on the above 42 W compact fluorescent dimming ballasts.

Update

Lutron now offers a new line of compact fluorescent ballasts that are designed to operate with Philips, GE, and Sylvania 42 W compact fluorescent lamps. The model numbers for these ballasts are:

New Ballast Part Number	Old Ballast Part Number
EC3DT442KU1S	FDB-CT42-120-1-B
	FDB-CT42-277-1-B
EC3DT442KU1	FDB-CT42-120-1-E
	FDB-CT42-277-1-E

In addition to the four new 1-lamp 42 W compact fluorescent ballasts, Lutron is now offering 2-lamp 42 W compact fluorescent ballasts that will operate with Philips, GE, and Sylvania lamps. The ballast model numbers are:

EC3DT442KU2S
EC3DT442KU2

Note: These models provide dimming to 5% light level, and accept a universal voltage (120 – 277 V~ input).
