

Onsite Scene and Level Tuning (LSC-AF-VISIT)

Onsite Scene and Level Tuning visit to make lighting adjustments per the direction of a lighting designer.

Visit Summary

- Lighting designer will dictate what, if any, changes will be made.
- These adjustments may include light level, fade time, and delay in lighting scenes.
- Facility representative and/or lighting designer will sign off on all work at the completion of the visit.

Additional Information

- Lutron requires 10 business days notice to schedule an onsite visit.
- Coordination of required visit attendees, including lighting designer, is the responsibility of the facility representative.
- Quantity dictates the number of days purchased.
- Facility representative should secure access to the required areas prior to the visit date.
- This visit may occur after hours.
- Should be performed after building is in operation.
