

# Wired Keypads - Designer

## **Designer seeTouch® KEYPADS**

The Designer-style *seeTouch* keypads feature large, easy-to-use buttons, plus a unique backlit engraving option that makes the keypads readable any time of the day or night. *seeTouch* buttons are rounded, allowing engraving to be displayed at an upward angle and increasing readability. *seeTouch* keypads are available with one to seven buttons, allowing you to customize the number of functions to fit your need. The flexible design even allows the number of buttons — and the configuration of the buttons — to be changed after the keypad is installed.

All wired *seeTouch* models have two contact closure inputs on the back of the unit which provide independent functions from the front buttons. Other options include configurations with infrared receiver and raise/lower buttons.

## **FINISHES AND COLORS**

Designer-style *seeTouch* keypads are available in Designer Gloss finishes and Satin Colors® Matte finishes. Button and insert color may differ. Refer to *seeTouch* Ordering Guide (367-571) for details. Also See Appendix F: Colors & Finishes.

## **ORDERING METHODS**

Temporary button labels for *seeTouch* keypads are available in Gray letters (GR) for light colored buttons, or in White letters (WH) for dark colored buttons. Order model number ST-LBL-GR (or WH) for 1 sheet, or model number ST-LBL25-GR (or WH) for a pack of 25 sheets.
