## Lutron<sub>®</sub> | Lyneo™ slide dimmer

#### Lyneo preset

For incandescent and magnetic low voltage loads, 2 way. Max. 500 W / VA, min. 40 W / VA

Lyneo slide to off

For incandescent loads, single pole Max. 500 W, min. 40 W

#### Lyneo 0-10 Preset

For 0-10 dimmable fluorescent ballasts, 2 way Max. 20 ballasts / 40 mA Requires external relay by others

#### Lyneo 0-10 Slider

For 0-10 dimmable fluorescent ballasts Max. 20 ballasts / 40 mA. Requires occupancy sensor\* to power ballasts. Sensor by others

<sup>\*</sup> or other device to switch mains voltage.

## Lutron<sub>®</sub> | Lyneo<sub>™</sub> slide dimmer

#### **Product family features:**

- Full family of products for most lighting sources includes:
  - Slide-to-off dimmer
  - Preset dimmer with separate on / off button with status light
  - Preset 0-10 dimmer with separate on / off button
  - Slider 0-10 dimmer
- · Position of slider indicates light level
- · Slide up and down to change light level
- · Mechanical switch to turn lights on / off
- · White LED status light
- · Installs like a switch

#### Specifications for single dimmer:

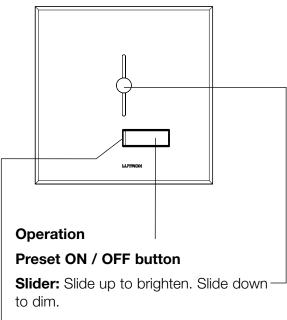

- · 220 240 VAC, 50 Hz
- Max. wattage 500 W / VA, min. wattage 40 W / VA
- CE approved
- Precise colour consistency
- · Thermal overload protection
- · Lightning strike surge protection
- Voltage compensation
- Wall box with a depth of at least 35 mm recommended
- · Triac based dimmer with leading edge capability
- Incandescent only and incandescent / magnetic low voltage models available
- · Electrostatic discharge protection

#### Specifications for fluorescent dimmer:

- 220 240 VAC, 50 Hz
- Preset version to be used with an external monostable relay by others with a coil rated for 250 V and 30 VA max.
- Slider version requires mains voltage occupancy sensor by others
- · Max. 20 ballasts / 40 mA
- CE approved
- · Precise colour consistency
- Must be installed in a wall box with a depth of at least 35 mm

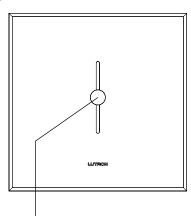

## Lutron<sub>®</sub> Lyneo<sub>™</sub> slide dimmer

#### Lyneo preset dimmer

**Status light:** Bright when lights are on. Dim when lights are off.

#### Lyneo slide-to-off dimmer

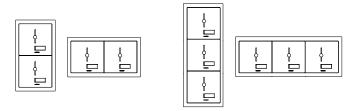

#### **Operation**

Select light level with slider; slide down to off.

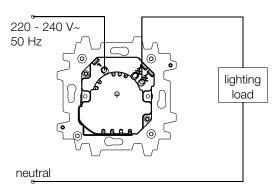

#### **Ganging and derating**

When ganging this product with other Lutron dimmers the maximum capacity remains 500 W / VA, no derating is necessary.

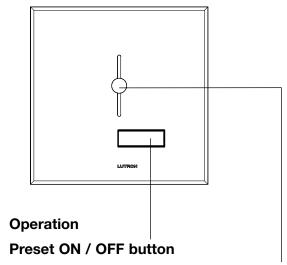

Use Lutron 2-gang or 3-gang frames to gang Lutron dimmers and wiring accessories.

#### Lyneo single dimmer

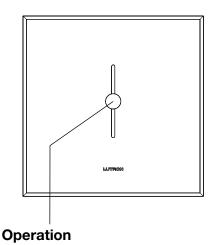

## Lutron<sub>®</sub> Lyneo<sub>™</sub> 0-10 slide dimmer

#### Lyneo 0-10 preset

Slider: Slide up to brighten. Slide down to dim.

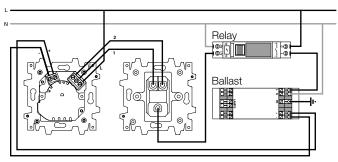

#### Lyneo 0-10 slider

Select light level with slider.

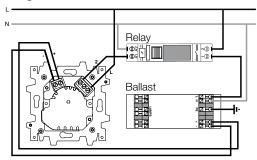

#### Lyneo 0-10 preset

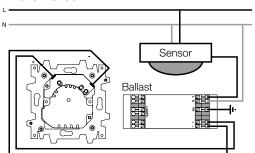

Relay by others

#### Single

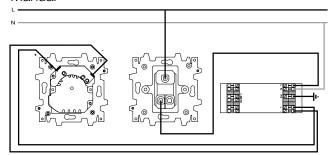

#### Lyneo 0-10 slider

Occupancy sensor by others

#### Manual

### Choosing your dimmer

You know the mood you want. The next question is: how do you create it? Here's how to choose the right dimmers for your project.

#### Step 1

Choose the style and colour that best matches or complements the décor of the room.

#### Step 2

Choose the dimmer designed to control the kind of lights you have in the room.

#### Types of lighting

INC	MVH	MLV *		FLUO
Incandescent 230 / 240 V	 Mains voltage halogen 230 / 240 V	Magnetic Low voltage 12 V	=)	0-10 Ballasts

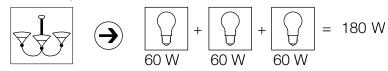

#### Step 3

Calculate the total load.

Incandescent light bulbs have wattage ratings marked on the bulb. Add up the wattage of all the bulbs in the fixture and select a dimmer that is rated above or equal to your total wattage.

#### Incandescent 230 / 240 V

For example

#### Mains voltage halogen 230 / 240 V

For example

#### Magnetic low voltage 12 V

For example

#### Fluorescent 0-10

Preset: To be used with an external monostable relay by others with a coil rated for 250 V and 30 VA max.

20 ballasts / 40 mA

Slider: Requires mains voltage occupancy sensor\*\* by others.

20 ballasts / 40 mA

<sup>\*</sup> For electronic low voltage loads, use Lutron's Rania® dimmers.

<sup>\*\*</sup> or other device to switch mains voltage.

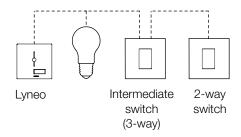

#### Step 4

Decide how many dimmers/switches control the same light fixture and choose from these options.

**If there is only one switch**, use a single-pole dimmer to dim a light from one location. (2-way dimmers will work in this application.)

**If there is more than one switch**, use the 2-way Lyneo preset to replace a 2-way switch. The Lyneo preset dimmer can not replace an intermediate switch.

Note: dimming from Lyneo location only.

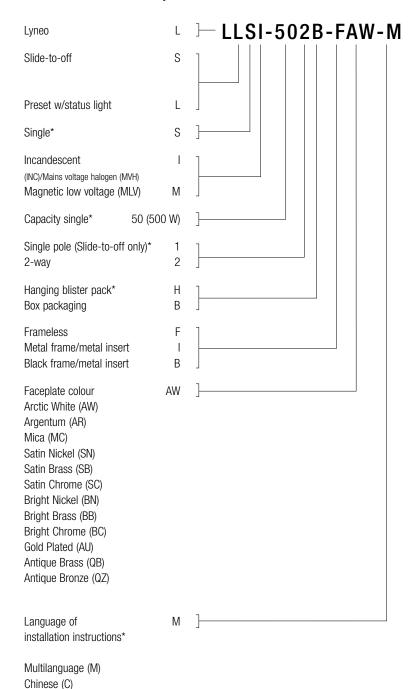

#### For multi-location dimming use Lutron's Rania dimmers.

Step 1		Step	Step 3	Step 4				
Product	INC 230 / 240 V	MVH 230 / 240 V	MLV 12 V	FLUO loads	Load	1 way	2 way	Multi way
Lyneo STO	Х	х			500 W	Х		
Lyneo preset	Х	х	Х		500 W / VA	Х	Х	Х
Lyneo 0-10 preset				Х	40 mA* / 30 VA	Х	Х	Х
Lyneo 0-10 slider				Х	40 mA*	Х		

<sup>\*</sup> Equivalent to a max. of 20 ballasts.

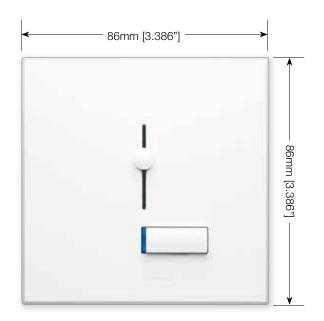

### Ordering your dimmer

Here is an example of how to order Lyneo dimmers for the look and function you desire.

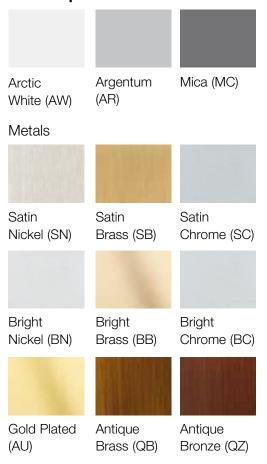

English (E)

French/Spanish/Portuguese (S)

#### Lyneo preset dimmer Shown in Arctic White Model # LLSI-502B-FAW-M

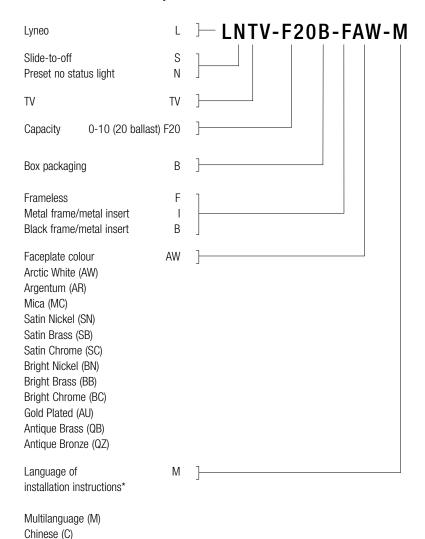

#### **Colour options**

Other colours and finishes available upon request.

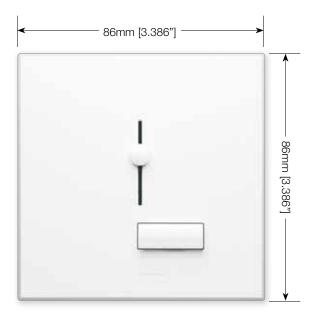

### Ordering your Lyneo™ 0-10

Here is an example of how to order Lyneo dimmers for the look and function you desire.

English (E)

French/Spanish/Portuguese (S)

# **Lyneo preset dimmer**Shown in Arctic White Model # LNTV-F20B-FAW-M

#### **Colour options**

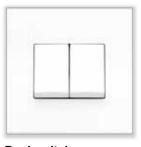

Other colours and finishes available upon request.

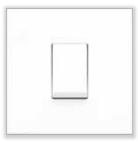

### Ordering your accessories

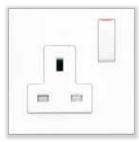

Single switch 2-way, 10 AX, 250 V~

**Dual switch** 2-way, 2 x 10 AX, 250 V~

Intermediate switch 10 AX, 250 V~

**UK** switched socket 13 A, 250 V~

**UK** phone jack

Phone/tv jack
