Your home in a whole new light

Shading solutions that put you in control

LUTRON
Let light complement your mood and transform the way you feel.

Think about how your mood changes when a drab, cloudy morning turns into a sun-kissed day, and then that bright afternoon sun softens into an evening dusk. You go from feeling lackluster to energized and then relaxed.

The reason is light.

Light not only changes the look of the day, but also affects the way you feel. Wouldn’t it be nice to adjust the amount of daylight in your home to complement your mood and even transform it?

With Lutron, you have the power to do that. The press of one button can shape the lighting in a space to create the perfect atmosphere for any activity.

SHADE STYLES: LUTRON OFFERS THE MOST COMPLETE LINE OF MOTORIZED SHADE STYLES AND FABRIC OPTIONS

Our motorized shades are available in a variety of styles so you can choose the type that works best with your home’s design.

**Roller Shades**
Roller shades complement both traditional and contemporary designs and are available in different sizes to accommodate the needs of any room. (Battery-powered options are available.)

**Horizontal Sheer Blinds**
Horizontal sheer blinds pair the soft elegance of a sheer with the precise control of a blind. Sheer layers also offer privacy, even when vanes are open.

**Honeycomb Shades**
Honeycomb shades add luxury to a space with their elegant textures, as well as depth, thanks to their cellular design—which also provides superior insulation.

**Wood Blinds***
Wood blinds are an attractive and effective way to ensure privacy, while still allowing sunlight to filter into a space. Only Lutron wood blinds with independent lift and tilt can offer precision alignment of both lift and tilt position between multiple shades.
**Drapery Track Systems**
Drapery track systems electronically operate pinch pleat or ripplefold draperies to elegantly provide quiet, convenient control of daylight. Simple controls and smooth transitions transform any room into a pleasing, inviting space.

**Kirbé Vertical Drapery System**
An industry first, the Kirbé vertical drapery system smoothly pulls fabric up and completely out of the way—unlike traditional draperies that move from side-to-side. This unique design provides greater access to windows and views by eliminating stack back.

**Roman Shade Systems***
Roman shade systems allow for more reliable, smoother and virtually silent movement of Roman shades.

*WARNING*

The cords on this product present a potential strangulation hazard.

For child safety, consider cordless alternatives or products with inaccessible cords.
The Entry

Create an inviting home. Raise shades remotely from the comfort of your car. Daylight floods your entry, highlighting your décor.
