Finishes

Architectural matte finishes
- White (WH)
- Beige (BE)
- Almond (AL)
- Light Almond (LA)
- Ivory (IV)
- Taupe (TP)
- Gray (GR)
- Sienna (SI)
- Brown (BR)
- Black (BL)

Glass faceplates
- Clear White Glass (CWH)

Architectural metal finishes
- Bright Chrome (BC)
- Satin Chrome (SC)
- Bright Brass (BB)
- Satin Brass (SB)
- Bright Nickel (BN)
- Satin Nickel (SN)
- Polished Graphite (PG)

Special notes on ganging, finishes, and faceplates:
- Palladiom keypads can only be ganged with other Palladiom keypads or New Architectural accessories. Ganging is only available for U.S.-style keypads/accessories.
- Order multi-gang faceplates separately. Order base unit with or without engraving credit in matching finish.
- 4B and 3BRL button configurations are field interchangeable. All other button configurations require replacing the base unit.
- Glass faceplates are only interchangeable with other glass faceplates. Metal faceplates are interchangeable with plastic faceplates.

Color samples shown are representations only. See product samples for exact finishes.

Ordering

Recommended ordering method
Submit custom engraving details at the time of purchase.

HQWT - U - P____W - ____ - E (bulk unit + buttons + rectangular faceplate)
HQWT - S - P____W - ____ - E (bulk unit + buttons + square faceplate)

- Multi-gang faceplates use “P” for each opening (e.g. LWT-U-PP-WH).
- Order individual base units for each gang in multi-gang applications (e.g. HWQT-B-P____W-____-E).
- Faceplate styles are “U” for U.S. style and “S” for square style.
- Button and faceplate materials should match.

Alternate ordering method
Ships with default engraving and includes a custom engraving credit.

HQWT - U - P____W - ____ (bulk + buttons + rectangular faceplate)
HQWT - S - P____W - ____ (bulk + buttons + square faceplate)
HQWT - B - P____W - ____ (bulk unit + buttons)
LWT - ______ - ______ - ______ (faceplates)

- Order individual base units for each gang in multi-gang applications.
- Button and faceplate materials should match.
- Engraving credit for the button kit must match the finish of the original base or complete unit.

Redeem engraving credit for engraved button kit

PBT - ____ W - ____ - E

- Button and faceplate materials should match.
- Utilize the Engraving Manager in the HomeWorks QS software to specify and order your engraving and redeem the engraving credit for a custom engraved button kit.

Ordering

Order control

HQR - _______ - _______
model color

- Controls are available in Snow (SW) and Midnight (MN).
- Select the button configuration and color in the HomeWorks QS software.
- Keypads ship with blank buttons and labels for temporary use until an engraved button kit is installed. Keypad purchase includes an engraving credit added to the purchaser’s account that can be redeemed for an engraved button kit.

Redeem engraving credit for engraved button kit

RK - _______ - _______ - E
model color

- The keypad model and color chosen in step 1 determines the color and configuration of the buttons and whether those buttons are backlit or have backlit text. See examples at right.
- Utilize the Engraving Manager in the HomeWorks QS software to specify and order your engraving and redeem the engraving credit for an engraved button kit.

For metal faceplates

LFK - _______ - _______ - 
model color engraving

- If a metal faceplate is desired, purchase a midnight (MN) tabletop keypad and a separate metal faceplate.
- Omit the “-E” unless engraving on the faceplate is desired.
Custom Controls
Controls that perfectly match your design

Lutron controls have always been well known for their beautiful aesthetic, intuitive nature, and variety of standard choices. We also understand that standard options do not always fit the bill. For projects that require specific design elements, or an exceptionally high degree of detail, we can help you create a unique control for each and every space:

• create exactly the right look for a space
• customize functionality to suit your client’s needs
• enhance the interactive experience for occupants by providing unique, intuitive controls

Option 1: Choose an existing custom design

Review options at www.lutron.com/CustomControls, then contact our customer service team for additional options. Consider customizing certain elements, such as color, finish, and engraving.

Option 2: Create a new custom design

Send us a sketch or mark-up of an image of an existing Lutron control, then contact our customer service team to start a conversation. We will work with you on the design parameters and feasibility.
Custom Engraving
Add personalized engraving to any control

As a finishing touch, you can add custom engraving. Text, icons, and images are all possible.

Icons and images
The following icons are a sample of our laser-engraving capabilities and are offered in either dark grey or white text. These icons appear on engraving sheets as a sample of options for custom engraving.*

Fonts and languages
The engraved font can be changed from the standard Helvetica to nearly any font, including characters from any language.

Engraving guidelines
For images and icons, files must be provided in .dxf or high-res .pdf format. In some cases, images and icons may need to be resized to fit appropriately on a button or faceplate.

For custom fonts, you can provide true-type font files or request a font by name.

* Palladiom keypads support a limited set of engraving icons and languages. Review spec sheet at www.lutron.com for more details.
