Getting Started

How do I get Quantum Vue™?
If you are an existing Quantum® customer you can purchase Quantum Vue through a software upgrade (most jobs won’t require additional hardware). To schedule an upgrade please contact the Lutron Services Company at 800.523.9466, follow prompts for “field service” and then “warranty and service plan options.”

If you don’t currently have a Quantum system, please contact customer support for information on ordering one for your building.

Where can I learn more about Quantum Vue?
Please visit www.lutron.com/quantum for more information, or contact your local Lutron sales representative.

Can I download Quantum Vue from the App Store?
No. This software solution is web-based and built into the Quantum system; it doesn’t have to be installed on your device. You can access the system through any device that can run a web browser.
