Catalog Volume 3

Connection diagrams for Softswitch128® (XPS)
Switched lighting

Non-dim lighting  →  HID  →  Motor  →  Fan  →  15A receptacle

Softswitch128 switching panel  →  Softswitch128 switching panel  →  Softswitch128 switching panel  →  Softswitch128 switching panel

For illustration purposes only. Consult model number pages for specific voltage and capacity information.
### Control options

Control options

- Slim-button wallstation
- Large-button wallstation
- European-style wallstation
- Architrave wallstation
- seeTouch® keypad

For illustration purposes only. Consult model number pages for specific voltage and capacity information.

Sensors

- Wired occupancy sensors
- Daylight sensor package
- Wired power pack
- Daylight sensor package - daylight controller
- Contact closure input/output interface
- seeTouch® keypad
- seeTouch® keypad with occupancy sensor connection
- Daylight sensor package - wired power pack
- Softswitch128 controller (integral to panel)
- Softswitch128 controller (integral to panel)
- Softswitch128 controller (integral to panel)

For illustration purposes only. Consult model number pages for specific voltage and capacity information.
Integration

- Third-party touchscreen, PC or A/V system
- Third-party contact closure device (e.g., projection screen)
- Third-party low-voltage keypad

- RS232 interface
- Ethernet interface
- Contact closure output interface
- Contact closure input/output interface
- Wallbox contact closure input interface

- Softswitch128 controller (integral to panel)
- Softswitch128 controller (integral to panel)
- Softswitch128 controller (integral to panel)
- Softswitch128 controller (integral to panel)
- Softswitch128 controller (integral to panel)

For illustration purposes only. Consult model number pages for specific voltage and capacity information.
