

Residence: \_\_\_\_\_ Room: \_\_\_\_\_ Window(s): \_\_\_\_\_

**Important:** If you plan on installing the shade in a place where you need to raise the entire shade above an obstacle (such as above doors that open), please refer to our [stacking guidelines](#) (P/N 368-2573) to determine how high to mount your shade.

## Step 1 Option A: Inside Mount Measurements

### Inside Mount Measurements

- Depth of window must be at least 1½" (38.1 mm) to use inside mounting option.
- Do not make any deductions from the width! Lutron will deduct ½" on inside mounted shades to allow room for proper operation.
- Lutron will make NO additions or deductions to the height measurement.

#### Width:

#### Height:

Order width: \_\_\_\_\_ inches/mm  
(**Smallest** of the three measurements)

Order height: \_\_\_\_\_ inches/mm  
(**Largest** of the three measurements)

## Step 1 Option B: Outside Mount On Trim Measurements

**Width:** The width of your shades is up to you. For example, if you'd like to completely cover the window, measure from edge to edge of the frame.

**Height:** Measure from the top of the trim to the windowsill.

## Step 1 Option C: Outside Mount Above Trim Measurements

**Width:** The width of your shades is up to you. For example, if you'd like to completely cover the window, measure from edge to edge of the frame.

**Height:** Determine where you're going to mount the shade. Then measure from where the top of the headrail would fall, down to the windowsill.

**Note:** The bracket is 2⅝" high, so you must allow for at least 2⅝" of space above the top edge of the window trim.

**Step 2** Select Pleat Style and Fabric

**Single-cell Light-filtering**

- Point-bonded
- Spun Lace\*
  - Vinyl
  - Aluminum
- Crush
- Woven

**Double-cell Light-filtering**

- Spun Lace

**Single-cell Sheer**

- Sheer\*
  - Vinyl
  - Aluminum

**Single-cell Room-darkening**

- Point-bonded
- Spun Lace\*
  - Vinyl
  - Aluminum

\* Most fabrics come standard with either a vinyl or aluminum headrail. However, certain fabrics allow a choice in headrail material.

Fabric Color: \_\_\_\_\_ (see [www.serenashades.com](http://www.serenashades.com))

Fabric P/N: \_\_\_\_\_ (see [www.lutron.com/cellularfabrics](http://www.lutron.com/cellularfabrics) or cellular fabric binder)

**Step 4** Select Power Options

- Batteries
- Plug-in
- Manual

**Step 5** Select Stand Alone Control

- RF Control (PJ-3BRL-GXX-T02)\*

- Single group IR (SVIT-CS-WH)

- 4-group IR (SVIT-CSGC-WH)

- Not required (previously purchased)

\* Select color of RF Control:

- White (WH)

- White/Grey (WG)

- Ivory (IV)

- Light Almond (LA)

- Black (BL)
