

Symbol	Model Number	Description	Qty
	MS-VPS6M2-DV-WH	Maestro vacancy sensing switch*	1

## Control Functionality

### Occupant Enters:

Lights do not automatically turn on when an occupant enters the space; lights must be turned on manually.

### When Occupied:

Manual: Occupant uses wall switch to turn all lights off.

### Occupant Exits:

All lights automatically turn off 15 minutes after all occupants exit.

\* Maestro MS-VPS6M2 is not compatible with Vive wireless hub.
