**Claro® & Satin Colors® accessories & wallplates**

2.94” (75mm)

---

**available colors** (see pages 12-13 for color swatches)

**colors (gloss finish)**

- **WH** white
- **IV** ivory
- **AL** almond
- **LA** light almond

**colors (metal finish)**

- **SS** stainless steel (wallplates only)

**colors (satin finish)**

- **HT** hot
- **MR** merlot
- **PL** plum
- **TQ** turquoise
- **TC** terracotta
- **GB** greenbriar
- **BG** bluestone
- **MS** mocha stone
- **SG** sea glass
- **TP** taupe

**colors & finishes key**

- Available in all gloss and satin finishes
- Available in satin finish
- Available in gloss finish

---

**product family features**

- Full line of wiring devices in designer style opening
- Wallplates feature clean appearance with no visible hardware
- Coordinating Claro® and Satin Colors® wallplates available separately (including stainless steel) for Lutron® dimmers, switches, and systems

---

Multiple devices with line and low-voltage can be mounted behind a common wallplate using a standard barrier backbox (see Application Note #213) at www.lutron.com/applicationnotes

CAD file downloads available at www.lutron.com/cad

</tr>
</tbody>
</table>

UL/CSA/NOM regulatory approvals

IMPORTANT NOTES

- If the hot and dimmed hot feeds to the split duplex HFDU are supplied from different circuits or split-wired, with separate switch-legs, a means to simultaneously disconnect these circuits must be provided at the panel board where they originate (NEC 210.7(C) 2002 Edition). A 2-pole circuit breaker or two single-pole circuit breakers with an approved handle tie can be used to accomplish this simultaneous disconnect. Feed-through dimming panels, which are those without breakers, are recommended when using the HFDU.

- Receptacles and plug for dimming use are UL listed for use with all Lutron® wallbox dimmers included in this catalog.

- If there is only one electrical feed to the receptacle, then the duplex DFDU must be used.

- For detailed information, see Application Notes #91 (Guide to Dimming Table Lamps) and #109 (Guide to Dimming Portable Lamps via Receptacles) at www.lutron.com/applicationnotes
field customizable multi-port frames

- shipped with 6 blanks
- connectors sold separately (shown below)
- connectors snap in (no tools required)
- available in gloss and satin colors – connectors available in white and black only unless noted

** order stainless steel using CW- model numbers

Custom wallplate configurations, colors, and engraving are available from Lutron®. For additional information and for help ordering contact customer service at 1.888.LUTRON1.

All Lutron® wallplates are screwless, seamless, and have no visible hardware. There are two parts:
1) alignment adapter plate
2) front plate – securely snaps onto alignment adapter plate

Controls must have heat-sink fins broken for multi-gang installations. Please derate dimmers and switches (page 182) as required.

See page 85 for available colors.
To order, add color suffix to model number.
Example: SC-6PF- HT

* only available in white and black
