

## GRAFIK Centralized Lighting Control System Zone Licenses

This software key allows the *GRAFIK* Centralized Lighting Control System to control an additional 64 zones, for up to 512 zones on each processor. Each processor comes standard with 64 zones.

Note that a GRAFIK 5000™ Processor is defined as having 128 zones (64 zones plus one additional block of 64 zones on one processor), and a GRAFIK 6000® Processor is defined as having 512 zones (64 zones plus seven additional blocks of 64 zones on one processor).

Lighting Zone Controllers do not require zone licenses.
