

Enhance your home's beauty, simplify daily routines, improve security, and experience the magic of lighting control with a RadioRA® home light control system.

The RadioRA® system uses reliable wireless RF control to enable you to adjust lights and Lutron® Sivoia® QED shades with convenient keypads. Create just the right light level for every activity or any mood. Check to see if the lights are on and turn them off without running around the house. RadioRA® systems easily integrate with popular remote controls and home automation products to add a new dimension of control.

- perfect for any home – new construction or retrofit
- no new wiring – simply replace standard switches with RadioRA® dimmers using existing wiring
- scalable and expandable
- saves energy and extends bulb life
- matching components, accessories and wallplates available in a variety of colors and finishes

Shown actual size: RadioRA® large button, wall-mounted 7-button master control and 1-gang Satin Colors® wallplate in snow (SW)
