Assign a Pico® wireless control to the shade

**Step 1:** Tap the shade button on all shades you want assigned to the control. The shade button illuminates green.

**Step 2:** Hold the Close button on the Pico for about 10 seconds, until the shade button blinks and turns off.

Adjust the shade’s lower and upper limits

**Note:** Shade must be assigned to control. See reverse side for diagram.

**Lower Limit:**

**Step 1:** Tap the shade button on the shade you want to adjust. The shade button illuminates green.

**Step 2:** Hold the Open and Raise buttons simultaneously on the Pico for about 10 seconds, until the shade button blinks and remains lit.

**Step 3:** Use the control’s Raise and Lower buttons to adjust the shade position to the lower limit you prefer.

**Step 4:** Hold the Close button on the Pico for about 10 seconds, until the shade button blinks and turns off.

**Upper Limit:**

**Step 1:** Follow Steps 1- 3 of the Lower Limit steps.

**Step 2:** Hold the Open button on the Pico for about 10 seconds until the shade button blinks and turns off.
Set a favorite level for shades
Note: Shade must be assigned to control.

**Step 1:** Use the control’s **Raise** and **Lower** buttons to adjust the shade to desired level.

**Step 2:** Hold the **Favorite** button on the Pico® for about 10 seconds until the shade button blinks.

Restoring Shades to Factory Default

**Note:** This step will remove any controls assigned to the shade. It will not affect the shade’s upper and lower limits.

**Step 1:** Tap the **shade button** quickly 3 times, and hold the **shade button** after the third tap until the shade button LED blinks green rapidly.

**Step 2:** Immediately tap the **shade button** quickly three more times, until the shade button LED blinks green rapidly, then blinks red/green three times, and turns off.
