

Lutron Energi Advisor™

Cloud Service

What is it?

Lutron Electronics has partnered with ecolnSight to make the selection of lighting controls easier than ever. With the click of a button, your users will receive a cost effective Lutron lighting control solution recommendation based on the audit and fixture upgrade information that they entered in ecolnSight. The recommendation includes a full bill of material as well as energy saving estimates that seamlessly updates the overall proposal.

How do I sign up?

1. Sign up for a free corporate myLutron account at www.lutron.com. Make sure you use a shared company email account, not your personal e-mail.
2. At the registration page, please make sure to enter at least one “ship-to” account number that you already have with Lutron.

I have a Lutron account number or training code [?](#)

Lutron account number: [?](#)

1. Please contact your local Lutron Sales Rep to verify your account.
2. After you have signed up for an account and your account has been activated, please enter your username and password into ecolnSight’s “Lutron Energi Advisor” field.
3. Click “confirm” and your corporate ecolnSight and your corporate myLutron account are now linked!

How do corporate users use this service?

1. The service works like a credit/debit system on a per project bases.
2. You will first start off with 20 credits for your corporate account. Your corporate users can use these credits for up to 20 projects.
3. After those credits run out, please contact Lutron’s Customer Service (custsvc@lutron.com) to replenish your account.
