

Care Instructions

Routine Cleaning

Regular light dusting with a feather duster is suggested. A hand-held vacuum with low suction may also be used. When vacuuming, avoid pulling or stretching the fabric. Rigorous vacuuming is not recommended, since this could distort the fabric. Alternatively, dirt and debris can be blown away using compressed air or a hand-held hair dryer on the cool setting.

Spot Cleaning

When needed Eco-friendly fabrics can be cleaned by gently blotting with a soft, damp cloth or a sponge, using lukewarm water and a mild detergent. Be careful not to apply too much pressure to the fabric. Let area air dry. Alternatively, a dry chemical sponge may be used for spot cleaning as well.
