

Lutron Announces Availability of New BIM Objects

—New Families Now Available—

Coopersburg, PA (February 3, 2011)—Lutron Electronics Co., Inc., the world leader in the design and manufacturing of light control solutions, today announces the availability of new BIM Objects. These BIM Objects give designers, specifiers, and construction teams a powerful new tool for specifying light control to bring greater energy efficiency and sustainability to their projects.

“Lutron continues to create state-of-the-art project design tools that make specification and installation easier,” said Ed Blair, Vice President of the Office of Business Development. “These new additions are our latest product offerings and expand the listing of product families already currently available.”

The new Lutron BIM models include the following product families:

- GRAFIK Eye® QS
- Energi Savr Node™
- Sivoia® QS Shades
- EcoSystem® Ballasts
- Radio Powr Savr™ Daylight Sensors
- Radio Powr Savr Wall and Corner Occupancy Sensors
- seeTouch® QS Wallstations

The use of BIM Objects allows users the opportunity to properly locate controls, sensors, and devices in a building, empowering design and construction professionals to achieve maximum lighting energy savings.

Some of the existing Lutron BIM models include the following product families:

- Radio Powr Savr Occupancy/Vacancy Sensors
- EcoSystem Sensors and Controls
- Maestro® Wireless Dimmers and Switches

Specifiers, construction teams, and customers can access Lutron Revit BIM Objects online at the industry resource website: Autodesk® Seek (<http://seek.autodesk.com>) and www.lutron.com.

About Lutron Electronics (www.lutron.com)

Lutron Electronics, headquartered in Coopersburg, Pennsylvania, designs and manufactures energy-saving lighting controls, automated window treatments and appliance modules for both residential and commercial applications. Its innovative, intuitive products can be used to control everything from a single light, to every light, shade and even stand-by power in a home or commercial building. Lutron products make any space more versatile, while enhancing ambiance, comfort and productivity. They also save energy and make light bulbs last longer, making them an eco-friendly addition to the home and workplace. Founded in 1961, Lutron estimates that the installed base of its products saves the nation nearly 10 billion kWh of electricity, or approximately \$1 billion in utility costs per year. Lutron manufactures more than 16,000 energy-saving products, sold in more than 100 countries around the world.
