

Lutron's New GreenScreen® Revive Fabrics for Roller Shades

—Environmentally friendly fabrics are made in the USA—

Light control manufacturer Lutron Electronics Co., Inc., answers the ever-increasing need for environmentally friendly roller shade fabrics by introducing new GreenScreen Revive.

GreenScreen Revive is comprised of 89% Repreve® polyester – made from pre- and post-consumer waste (water bottles). The new fabric will achieve Cradle to Cradle certification upon its launch. Made in the USA, GreenScreen Revive fabric is 100% recyclable and available in multiple openness factors.

GreenScreen Revive will be stocked in 8 colors. The following certifications are in process:

- Greenguard certification
- Oeko-Tex Standard 100 certification
- RoHS compliant
- Cradle to Cradle certification
- NFPA 701 fire rated

GreenScreen Revive are available for order in the Shade Configuration Tool (SCT) or through Lutron customer service.

About Repreve

Repreve is a U.S.-based company, now a global leader in sustainable textile solutions. For more information, view www.repreve.com.

About Lutron Electronics (www.lutron.com)

Lutron Electronics, headquartered in Coopersburg, Pennsylvania, designs and manufactures energy-saving lighting controls, automated window treatments and appliance modules for both residential and commercial applications. Its innovative, intuitive products can be used to control everything from a single light, to every light, shade and even stand-by power in a home or commercial building. Lutron products make any space more versatile, while enhancing ambiance, comfort and productivity. They also save energy and make light bulbs last longer, making them an eco-friendly addition to the home and workplace. Founded in 1961, Lutron estimates that the installed base of its products saves the nation nearly 10 billion kWh of electricity, or approximately \$1 billion in utility costs per year. Lutron manufactures more than 16,000 energy-saving products, sold in more than 100 countries around the world.
