

When choosing a
lighting control system

Why Wireless?

Get in. Get out. Maximize profits.

FLEXIBLE

Wireless hub¹ provides central management, integration and simple, ladderless set up using **Vive Vue**² on any smart device.

EASY TO INSTALL

Position **controls**³ and **sensors**⁴ in seconds without wiring. Add or relocate at any time.

MORE PROFITABLE

Offer big-system benefits with a more competitive bid. Reduced labor and materials means more accurate estimates.

VIVETM

The wireless lighting control system with timeclock, demand response, energy monitoring, and BACnet integration.
