

Lutron Electronics Co., Inc. Limelight Fixture Control Device Five-Year Limited Warranty

For a period of five years from the date of shipment by Lutron, Lutron warrants each new Limelight fixture control device and sensor to be free from manufacturing defects. Lutron will, at its option, repair or provide a comparable replacement for any defective Limelight fixture control device that, in the opinion of Lutron, has been installed and operated pursuant to Lutron product specifications, including installation in accordance with all instructions, specification submittals and application notes and performing all prescribed engineering and manufacturing tests, and within the operating temperature rating of the device so long as Lutron is promptly notified of the defect within the five-year warranty period and, if requested by Lutron, the Limelight fixture control device or sensor is returned to Lutron.

Warranty is void if:

1. The fixture manufacturer or installer does not follow the installation instructions, the specification submittals, and all applicable application notes.
2. The product is modified, disassembled or tampered with in any way.

This warranty is in lieu of all other express warranties and all implied warranties, including implied warranties of merchantability and of fitness for a particular purpose. This warranty does not cover: the cost of installation, removal or reinstallation; damage resulting from misuse, abuse, or improper or incorrect repair; damage from improper wiring or installation; or incidental or consequential damages. Lutron liability on any claim for damages arising out of or relating to the manufacture, sale, installation, delivery, or use of the Limelight fixture control device is limited to the purchase price of the product.

No Lutron agent, employee or representative has any authority to bind Lutron to any affirmation, representation or warranty concerning the Limelight fixture control device. Unless an affirmation, representation or warranty made by an agent, employee or representative is specifically included herein, or in standard printed materials provided by Lutron, it does not form a part of the basis of any bargain between Lutron and customer and will not in any way be enforceable by customer.

In no event will Lutron or any other seller be liable or responsible for any (i) consequential or special damages, (ii) repair work undertaken without Lutron prior consent, (iii) ancillary equipment not furnished by Lutron which is attached to or used in connection with the Limelight fixture control device, all such equipment being expressly excluded from this warranty, or (iv) damage to the Limelight fixture control device resulting from the use of ancillary equipment not furnished by Lutron for use with the Limelight fixture control device.

This warranty provides specific legal rights. Other rights, which vary from state to state, may exist. Some states do not allow limitations on how long an implied warranty lasts or the exclusion or limitation of incidental or consequential damages, so the above limitations or exclusions may not apply.

Contact Lutron Customer Assistance at the numbers provided below or your local Lutron sales representative with questions concerning the installation or operation of a covered Limelight fixture control device or this Warranty, or to make a warranty claim. Please provide the exact model number when calling.
