

Simple, touchless lighting control solutions

To help slow the spread of germs, the CDC recommends frequent disinfecting of things you touch, such as light switches.

Let Lutron get the lights

Touch-free Lighting Solutions for Your Customers

In today's world, touch-free solutions are more important to your residential customers than ever. Here are three ways to help them turn on the lights without touching a switch:

- Simple, in-wall motion sensors
- Caséta Wireless smart motion sensor
- Caséta Wireless app control

Touchless controls for your customers

Solution 1

Simple, in-wall motion sensors

Lutron quality and performance, in a sensor. Lights automatically turn on when someone walks into a room, and off when they leave.

- XCT technology detects fine motion, meaning no callbacks
- Superior sensitivity won't leave customers in the dark
- Mistake-proof wiring
- Easy setup; no dip switches or dials
- Models for any application and all lighting loads
- Vacancy-only models available

Maestro in-wall sensor switch
MS-OPS

Maestro in-wall dimmer /sensor
MSCL-OP153M

For more information on these products visit lutron.com/maestrosensors.

Ideal for: Entryway, Garage, Mudroom, Entry Bathroom

Touchless controls for your customers

Solution 2

Caséta Wireless smart motion sensor

Sensing and smart control in one device.

- One sensor can control any number of Caséta smart switches or dimmers (as well as fan controls and Serena shades) within 60 ft
- Detects fine motion 3x better than the competition
- 180-degree field of view
- XCT technology detects fine motion, meaning no callbacks
- Easy setup

Caséta smart motion sensors
PD-OSENS-WH
(also available in vacancy PD-VSENS-WH)

In-wall smart dimmer switch with Claro wallplate
PD-6WCL-WH

Ideal for: Hallway, Kitchen, Bathroom

Touchless controls for your customers

Solution 3

Caséta Wireless app control

Add a Smart Bridge to unlock the full power of Caséta. Customers can adjust lights through schedules or by using their voice.

- Set custom lighting control features, like scenes and schedules
- Set up the Smart Bridge in 3 easy steps—no extensive networking experience needed
- You don't need to worry about Wi-Fi strength
- You don't need to set up individual devices with Wi-Fi credentials
- You don't need to come back if the network settings/passwords change or the homeowner changes his router

Dimmer Kit with Smart Bridge
P-BDG-PKG1W
