

Lutron Caséta Wireless

INSTALLATION GUIDE

Pre-requisites for Installations

- 1) Lutron Caséta app
- 2) Caséta Smart Bridge Pro
- 3) Alarm.com account

Configure Caséta Smart Bridge Pro using

Lutron Caséta Wireless app

- 1) Download the Caséta app
- 2) "Set Up My System"
- 3) Use the customer's primary email and a dummy password to sign up a new account.
- 4) **Make sure your phone is on the same network as the Smart Bridge.**
- 5) Follow instructions to set up the Smart Bridge and associate devices to it.

Register account with Alarm.com

- 1) Include Lutron Integration add-on

The screenshot shows the 'emPower' and 'Other Add-ons' sections. In the 'emPower' section, 'emPower Energy Package (Lights + Thermostats)' and 'Lutron Integration' are checked and highlighted with orange dashed boxes. In the 'Other Add-ons' section, 'Lutron Integration' is also checked and highlighted with an orange dashed box.

- 2) Use created Caséta customer login to add a Caséta Smart Bridge Pro to the account.
[Equipment > emPower Devices > Lutron](#)

The screenshot shows the 'emPower' tab selected. Under 'Lutron Devices', the 'Add Caseta Smart Bridge' button is highlighted with an orange dashed box. Other buttons include 'Add Repeater' and 'Update Status'.

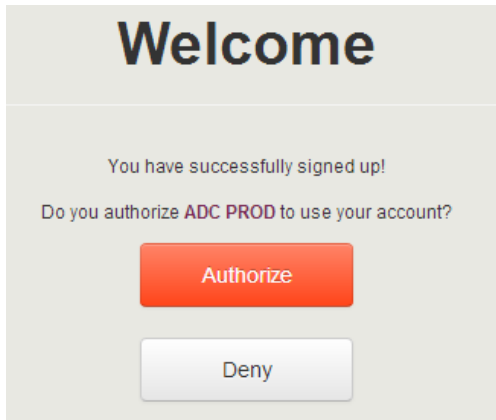

- 3) Follow instructions and click log in.

The screenshot shows a list of seven steps for Lutron Caseta integration, from downloading the app to completing the setup and receiving instructions to reset the password.

- 4) Log in using the created Caséta credentials

The screenshot shows a 'Sign in' page with an 'Email' input field, a 'Password' input field, and a red 'Sign in' button. A link for 'Forgot your password?' is located at the bottom.

- 5) Click "Authorize"

- 6) Go to the customer site and test that lights are working
- 7) Open Lutron Caséta app, log out and click "Sign In".
- 8) At the bottom of the page, click "Forgot your password".
This will allow customers to reset the password to their account.
