

Lutron Releases Version 2.0 of HomeWorks® QS Designer Software

Coopersburg, PA (September 7, 2011)—Light control manufacturer Lutron Electronics is pleased to announce the release of HomeWorks QS Designer 2.0 software, which offers support of recently announced products like Sivoia® QS wireless cellular shades, Ivalo's Finiré LED recessed light fixtures, the seeTemp® HVAC solution and the TouchPRO Honeywell thermostat with Clear Connect™ wireless, RF technology.

Additional, new HomeWorks QS Designer 2.0 software features include:

- vacation mode
- green button programming
- cut-copy-paste feature for button programming
- IR functionality with wired keypads
- "stop-if-moving" feature for shade programming
- remote limit set for shade commissioning
- sending of third-party integration strings
- real-time edit and system control zone identification
- database storage and extraction from processor
- remote access and terminal window for service and diagnostics

Lutron's energy-saving HomeWorks QS total home control system offers convenient control of lights, shades, temperature and stand-by power from small appliances. The system can be easily installed in any home and operates via Lutron's Clear Connect wireless, RF technology.

The software is available now to all HomeWorks QS-certified installers via the online dealer resource site: <http://resi.lutron.com/>.

About Lutron Electronics (www.lutron.com)

Lutron Electronics, headquartered in Coopersburg, Pennsylvania, designs and manufactures energy-saving lighting controls, automated window treatments and appliance modules for both residential and commercial applications. Its innovative, intuitive products can be used to control everything from a single light, to every light, shade and even stand-by power in a home or commercial building. Lutron products make any space more versatile, while enhancing ambiance, comfort and productivity. They also save energy and make light bulbs last longer, making them an eco-friendly addition to the home and workplace. Founded in 1961, Lutron estimates that the installed base of its products saves the nation nearly 10 billion kWh of electricity, or approximately \$1 billion in utility costs per year. Lutron manufactures more than 16,000 energy-saving products, sold in more than 100 countries around the world.
