

## **Lutron Features New GreenScreen® Revive Fabrics for roller shades at Greenbuild 2010**

*—Environmentally friendly fabrics are made in the USA—*

**Chicago, IL (November 16, 2010)**—Light control manufacturer Lutron Electronics Co., Inc., answers the ever-increasing need for environmentally friendly roller shade fabrics by introducing new GreenScreen Revive.

GreenScreen Revive is comprised of 89% Repreve® polyester – made from pre- and post-consumer waste (water bottles). The new fabric will achieve Cradle to Cradle certification upon its launch. Made in the USA, GreenScreen Revive fabric is 100% recyclable and available in multiple openness factors.

GreenScreen Revive will be stocked in 8 colors. The following certifications are in process:

- Greenguard certification
- Oeko-Tex Standard 100 certification
- RoHS compliant
- Cradle to Cradle certification
- NFPA 701 fire rated

GreenScreen Revive will be available for order on January 1st, 2011 in the Shade Configuration Tool (SCT) or through Lutron customer service.

### **About Repreve**

Repreve is a U.S.-based company, now a global leader in sustainable textile solutions. For more information, view [www.repreve.com](http://www.repreve.com).

### **About Lutron Electronics Co., Inc.**

Lutron Electronics Co., Inc., headquartered in Coopersburg, Pa., is the world leader in the design and manufacture of light control solutions for both residential and commercial applications.
